Art Unit: 2602

1. The original patent, or an affidavit or declaration as to loss or inaccessibility of the original patent, must be received before this reissue application can be allowed. See 37 CFR 1.178.
2. This application is objected to under 35 U.S.C. 251 as lacking the written consent of all assignees owning an undivided interest in the patent. The consent of the assignee must be in compliance with 37 CFR 3.73(b). See MPEP § 324.
3. The reissue oath or declaration filed with this application is defective because it fails to describe the actual error(s) in the patent, i.e., it fails to particularly specify the "defects" in the specification or drawings, 37 CFR 1.175 (a)(2); and/or it fails to distinctly specify the "excess or insufficiency" in the claims, 37 CFR 1.175(a)(3).

In addition, the reissue oath or declaration filed with this application is defective because it fails to particularly specify the errors and/or how the errors relied upon arose or occurred as required under 37 CFR 1.175(a)(5). Included are inadvertent errors in conduct, i.e., actions taken by the applicant, the attorney or others, before the original patent issued, which are alleged to be the cause of the actual errors in the patent. This includes how and when the errors in conduct arose or occurred, as well as how and when these errors were discovered. Applicant's attention is directed to *Hewlett-Packard v. Bausch & Lomb*, 11 USPQ2d 1750, 1758 (Fed. Cir. 1989).

Applicant has failed to specify particularly what "error" is relied upon for filing this reissue. In addition, Applicant has failed to point out how and when this alleged "error" arose or occurred during the prosecution of the original patent application.

Art Unit: 2602

Applicant has failed to point out what error in conduct by himself or by his representative led to the claims being partially invalid.

Applicant states "Recently, I was provided a copy of U.K. Patent Application GB 2 262 374 A, a copy of which is attached herewith, which appears to disclose certain of the subject matter previously claimed in my '282 patent." Applicant is required to specifically point out who and when the alleged errors were discovered. Simply stating that they were "recently" discovered does not meet this requirement.

Applicant has failed to point out what errors occurred during the prosecution of the original application which caused the need for new claims 16-22. Simply because the U.K. patent application did not consider a remotely controllable television receiver doesn't mean that was an error correctable by reissue. In addition, Applicant is required to compare the new claims with the original claims which are nearest in scope.

4. Claims 1-22 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

5. Claims 18, 19 and 20 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 18-20 are vague and ambiguous because the phrase "the associated unit" lacks clear antecedent basis.

Art Unit: 2602

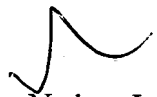

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kim et al. (USPN 5,448,370) is the U.S. equivalent to GB 2 262 374 A.
